

# CAPABILITIES STATEMENT

More than three decades ago, our founders developed a process for applying fluids to a substrate. It's a way that puts quality and control back into the hands of our partners. A way that ensures the highest quality and the latest in fluid applicator innovations. A way that saves you time and money, boosting efficiency and effectiveness, increasing quality and worker safety. And, along the way, our founders set up a company that has not only pushed the bounds of the fluid application industry, but created a workplace built on compassion for its employees. We may have created an industry, but that's only one source of our pride.

## CORE COMPETENCIES

### Primary Products:

- Fluid Applicators
- Custom Fluid Applicators
- Hand Application Systems
- Semi-Automated Fluid Application Equipment
- Fully-Automated Fluid Application Equipment

## DIFFERENTIATORS

- Created an industry and continues to set the bar.
- ISO 9001:2015 Certified, CE Certified, and UL Listed (upon request).
- Developed countless patents and application solutions for many well-known clients.
- Over 65 patents (Domestic and International) and 3 Software Copyrights.
- Over 5000 applicators and adding weekly.
- Integrity is a touchstone in everything we do, in our every action. And giving back—to our community, our employees and the world at large—drives us.

## PAST PERFORMANCE

Customers in industries including automotive/vehicle manufactures, glass and aerospace/defense.  
Specific references upon request

## PRIMARY NAICS & PSC CODES

- 326199** - All Other Plastics Product Manufacturing  
**9330** - Plastic Fabricated Materials  
**9999** - Miscellaneous Items

## COMPANY SNAPSHOT

-  **Gov. Business POC:** Sydney Spraw, PH.D.
-  419.866.0700
-  sspraw@designetics.com
-  1624 S. Eber Rd, Holland, OH 43528
-  **Work Area:** Nationwide
- Socio-Economic:** Woman-Owned Small Business
